G R E A T P L A I N S
UNDERGROUND CONSTRUCTION

WHO WE ARE

Great Plains Underground Construction was established in 2001. For over 15 years we have been delivering quality construction services to our growing list of satisfied customers.

The company first started by laying telecommunications cables. Since that time, we have successfully completed hundreds of projects throughout the Midwest, including utility work such as electrical and water line installations.

WHAT WE DO

Great Plains Underground Construction specializes in rural and urban power and telecommunications projects, offering a full-service, one-stop shop from installation to maintenance. Our competitive pricing and exceptional customer service allows us to maintain repeat customer averages that far exceed industry standards.

- Highly experienced workforce
- Modern equipment
- Minimal construction disruption
- Rapid emergency response
- Multiple plowing trains and horizontal directional drilling rigs
- Minimal impact on traffic flow and environmentally sensitive areas
- Consistent project completion that exceeds customer expectations on-time and on-budget

MISSION STATEMENT

Great Plains Underground Construction provides specialized, progressive telecommunications and utility construction services; enhancing profitability and satisfaction for our clients.
